

**NOTICE TO BLOOD TRIBE COMMUNITY
BLOOD TRIBE EMERGENCY PROTECTION BYLAW NO. 04-2020
PROOF OF VACCINATION REGULATION**

Pursuant to their inherent authority and the Blood Tribe Emergency Protection Bylaw No. 04-2020, the Blood Tribe Council has enacted the *Proof of Vaccination Regulation* (the "Regulation") and have directed that the Regulation be posted on the Blood Tribe Council website and come into force on November 1, 2021.

The Regulation requires individuals over the age of eighteen (18) to provide Proof of Vaccination prior to entering a Facility operated by Blood Tribe Department of Parks and Recreation or attending an Event at a Facility operated by Blood Tribe Department of Parks and Recreation. The intent of this Regulation is to limit the transmission of COVID-19 on the Blood Reserve, while encouraging recreation in a safe environment.

Children between the ages of twelve (12) and seventeen (17) may present a negative COVID-19 test as an alternative to providing Proof of Vaccination. Children under the age of twelve (12) are not required to provide Proof of Vaccination or a negative COVID-19 test.

In the event an individual is physically unable to receive a COVID-19 vaccine for a recognized medical reason, they may present written confirmation from a licenced physician verifying that they are unable to be vaccinated as an alternative to providing Proof of Vaccination.

In addition to the requirements set out above, an Operator of a Facility or an Event may require an individual to comply with additional safety measures in order to attend the Event or access the Facility, including but not limited to: mask wearing, temperature taking, and the provision of personal information for contact tracing purposes.

Failure to comply with the Regulation may result in enforcement steps being taken. An offence may result in a \$1000 fine, imprisonment for a term not exceeding thirty days, or both a fine and imprisonment.
